Dear Dr. BLAINEY

Re: MRN: 861000
Patient Name: SCARLETT Irene
DOB: 21/05/1941
Address: 408/8 Stronghold St
BRIGHTON LE SANDS NSW 2216
Specialist Name: Dr. Patricia Potts

I saw Irene in the Osteoporosis Re-Fracture Prevention Clinic today.

They gave consent to being treated as a private patient and agreed to be bulk billed.

The 1st Zoledronic acid infusion was given on ? September or October 2024 through St George Hospital.
The infusion was well tolerated.

She is walking 2kms a day.

She forgot to have a lateral XR T/L spine. I have given her another referral.

I will organise for a phone consult in a few weeks to discuss the XR results.

I will catch up with them in 12 months to organise the next infusion, or earlier if there is fracture.

Thank you for your ongoing care.

Kind Regards,

Dr. Patricia Potts
