MAROUBRA 2035

DOB: 9/07/2002

Our Ref: 400004

Diagnosis: Normal structural eye exam. Normal physiological crowded optic discs.

Treatment: Reassured.

Review: With you yearly.

I saw Gene on the 24th October 2024. This letter is pertaining to that. Thank you for referring 16yo Gene, in Year 10 at school, for my opinion of asymptomatic incidental finding of query physiologically small crowded optic nerve heads as per your 14th Dec 2023 finding. From your document: BCVA (Optom): R+0.25/-0.50x 105 = 6/6 L+0.25/-0.50x75=6/6 Past Ophthalmic H: nil inj, nil sx, nil tx, nil drops. Family History: uncle ?possible strab and amblyopia (paternal) Birth History: c-section, full term, nil complications, BW: 3.2kg. GH: good Meds: Nil Allergies: lactose intolerance?, No known drug allergies. Social: 3 bros (youngest).

On examination: did not bring glasses: VAD sgls R6/7.5 PH 6/6-L 6/7.5+2 PH NI (Vista) VAN sgls RN5 LN5 (DFV). Cover test: Distance sgls ortho CT: Near sgls sm! XP c.gd re. LANG II sgls 4/4 (200") bunny=elephant, fish=car We also took fundal photo and was normal. Optical coherence tomography nerve fibre layers around optic discs were also normal: R 119 L 114 microns. Ganglion cell counts were also normal: R 88 and L 86 microns. Essentially emmetropic on cycloplegic retinoscopy. Indirect ophthalmoscopic exam: optic discs: Right normal no swelling. Left normal. IOP R 19 L 17 (icare). No relative afferent pupil defects. Normal red saturation between eyes..

Impression: Normal eye exam. Asymptomatic. Loves to read. No headaches. Wears glasses for reading and screens from primary school (current 1y old) - forgot to bring. Recommended back to you yearly. No followup here. Happy to review of course if ever any new concerns in future. Thank you for the referral.

Yours sincerely,

Trang Miller MBBS(Qld) MMedStats FRANZCO (*Electronically sighted and verified*)
